It is also very suitable as a venue for tailor-made events for 50-70 people.

During the warm months, weather permitting, we also serve **hotel breakfast** on the terrace, providing significant added value for our guests right in the heart of the city. Diners can enhance their dishes with herbs growing around their tables.

In 2022, we gave the terrace a **complete refresh**, adorning it with a wooden floor and furnishing it with comfortable and dynamic seating sets from the Slovenian line, Drugačno Pohištvo. While preserving its distinctive retro vibe, we added some special touches – the white rose of Ljubljana, an authentic Ljubljana bench, and a "selfie spot" with a Rog bicycle, further connecting the hotel's identity with our green capital.

Our commitment to sustainability and initiatives for environmental impact reduction

Our commitment to sustainable development includes efforts to reduce waste, water consumption, energy conservation, and support for local suppliers and green practices.

In 2023, we introduced the initiative **"YOUR GREEN CHOICE"** which was excellently received among our guests. For longer stays, guests are invited to opt out of daily cleaning services, making a significant contribution to our sustainability efforts. In appreciation of their choice, we thank them with vouchers for a complimentary drink at the City Bar.

Golden Certificate for Accessibility for People with Disabilities

We take immense pride in being the **first in Ljubljana** to be honored with the Golden certificate for being **"Disability friendly"**. This recognition from the Premiki Institute serves as an inspiration for us to continue our efforts in ensuring unrestricted access and the most comfortable stay for all guests in our hotel.

Our goal is to provide unimpeded access and accommodation for all our guests. Therefore, the exterior, public areas of the hotel, and certain specifically adapted rooms are designed to best meet the needs of guests with mobility impairments, hearing impairments, or visual impairments. The entrance and hotel lobby on the ground floor are easily accessible and spacious, without stairs or carpets.

The reception is equipped with a hearing loop and magnifying glasses, and our staff is empowered with knowledge on how to offer entirely individualized solutions for each guest's well-being.

The elevators are sufficiently large with wider doors, suitable for wheelchair users. Where possible, ramps replace stairs in hallways. The restaurant and conference center are located on the ground floor, very open and entirely accessible, including adapted restrooms. The underground garage also has parking spaces for those using assistive technology.

We offer **6 spacious Comfort rooms** (35 m²) adapted for wheelchair users. The bathrooms are equipped with **adapted sanitary facilities**.
